

To our customers and suppliers

February 2005

It is with great pleasure, that we can inform you about EMTECH Power A/S - from March 1st 2005 are being merged with FLUX A/S.

Importance

As a customer you will experience a better service but else no essential changes in our daily cooperation, but in the long term achieve a possibility of an up-to-date quality/price on standard- and customer-designed products.

Why:

- To extend the technological possibilities, which lie in connecting development of the essential magnetic components and development of power supplies.
- To put together the production facilities, which both companies have at their disposal, for production of proto-types and also smaller to medium series in Denmark.
- To optimize administration and logistics.
- And most of all, to draw on Flux's experience of producing in Bangkok with 150 employees and a Danish technical management, for bigger series.

How:

- All the employees of EMTECH are transferred to Flux in Asnæs
- Sale, development, documentation, purchasing and order-control will be transferred to Asnaes in March.
- Start of production in Bangkok will start in the 3. and 4. quarter of 2005, where purchasing from Danish/European suppliers will be controlled from Asnaes.

After March 1st - changes mentioned below will appear (in italics).

EMTECH Power A/S
Industrivangen 5 – 11
DK-4550 Asnaes
Denmark
Web-site: www.emtech.dk

Tlf: +45 4656 3802
Fax: +45 4656 3974
